Re: DRS ARMOR Company and Product Compliance Statement for Employees and Customers with Disabilities (Section 508)

DRS Tactical Systems, Inc. (DRS) is committed to accommodating the needs of employees and customers with disabilities.

**Employees:**

DRS Technologies, Inc. is an equal opportunity/affirmative action employer. We consider applicants and employees without regard to race, color, religion, creed, gender, national origin, age, disability, genetic information, marital or veteran status, or any other category protected by federal, state or local law.

**Customers and Users:**

The DRS Technologies ARMOR Product Family of mobile rugged tablets and computers, along with their associated Peripherals and Accessories, include features that provide increased accessibility.

- DRS offers a wide variety of devices to meet diverse user requirements, including notebook computers that can be operated on a work surface, and tablets that can be hand held or set on a movable surface. These products utilize appropriate industry standard input/outputs;
- Displays include a wide range of viewing features: backlight with manual or automatic brightness settings, anti-reflective/anti-glare treatments, wide viewing angle support, and others;
- Key inputs utilize a keyboard with industry standard full size keys and key travel;
- Touch panels deliver key or other inputs that can be activated via finger, stylus, gloved hand or otherwise depending on the technology embedded and the needs of the user;

- Many features leverage Microsoft's Windows or Google's Android functionality for control and flexibility including user feedback, preference settings and alternate input technologies including speech recognition, visual optimization, sound alternatives, and operating without a display;
- Industry standard security and privacy features including fingerprint reading that can be configured into the daily use of the device or simply bypassed as required;
- Peripherals and accessories complement the platform with a huge variety of mountings and carry/storage options between use.
