

ACCESSIBILITY STATEMENT

LG Electronics is committed to providing access to our LCD Monitors for individuals with disabilities and is in compliance with Section 508 regarding accessibility of Electronics and Information Technology products and services for the disabled. This is to confirm compliance of LG LCD monitors with the technical standards for "Video and Multimedia Products" as defined under Section 508, Subpart B 1194.24. In order to support Section 508 guidelines, LG has reviewed the following models to ensure they meet the required guidelines for compliance:

Name of Product:

L1942S / L1942T / L1942P-BF / W1942TQ-BF / W2042TQ-BF / W2242P-BF / W2442PA-BF / W1942TE-BF / W2242TE-BF / L2000CP-BF / L200ME-BF / W2600V-PF / L206WU-PF / L1734S-BN / W1934S-BN

§ 1194.24 Video and multimedia products.

- (a) All analog television displays 13 inches and larger, and computer equipment that includes analog television receiver or display circuitry, shall be equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcast, cable, videotape, and DVD signals. As soon as practicable, but not later than July 1, 2002, widescreen digital television (DTV) displays measuring at least 7.8 inches vertically, DTV sets with conventional displays measuring at least 13 inches vertically, and stand-alone DTV tuners, whether or not they are marketed with display screens, and computer equipment that includes DTV receiver or display circuitry, shall be equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcast, cable, videotape, and DVD signals.
- (b) Television tuners, including tuner cards for use in computers, shall be equipped with secondary audio program playback circuitry.
- (c) All training and informational video and multimedia productions which support the agency's mission, regardless of format, that contain speech or other audio information necessary for the comprehension of the content, shall be open or closed captioned.
- (d) All training and informational video and multimedia productions which support the agency's mission, regardless of format, that contain visual information necessary for the comprehension of the content, shall be audio described.
- (e) Display or presentation of alternate text presentation or audio descriptions shall be user-selectable unless permanent.

Video or Multimedia Products (1194.24)

Multimedia products involve more than one media and include, but are not limited to, video programs, narrated slide production, and computer generated presentations. Provisions address caption decoder circuitry (for any system with a screen larger than 13 inches) and secondary audio channels for television tuners, including tuner cards for use in computers. The standards also require captioning and audio description for certain training and informational multimedia productions developed or procured by Federal agencies. The standards also provide that viewers be able to turn captioning or video description features on or off.
