508 Compliance

SAMSUNG Electronics America supports Section 508 of the Rehabilitation Act and the efforts of the federal government in making mainstream technology accessible to people with disabilities. SAMSUNG is committed to assisting its customers in complying with Section 508 requirements.

[Learn more about Section 508 >>](#)

VPAT Compliance

The Voluntary Product Accessibility Tool (VPAT) is a simple, Internet-based tool to assist contracting and procurement officials in satisfying the new market research requirements contained in Section 508.

EPEAT

SAMSUNG mobile computers and monitors are rated Silver or higher by EPEAT, a green electronics rating system that lets purchasers evaluate the environmental attributes of computer equipment.

[Visit our EPEAT compliant products >>](#)

RoHS compliance

All SAMSUNG monitors and notebooks are RoHS compliant, which restricts the use of certain hazardous substances in electrical and electronic equipment. SAMSUNG prides itself on meeting the toughest environmental standards in the world as represented by RoHS criteria.

[Explore the RoHS site >>](#)

Energy Star

At SAMSUNG, our IT products, desktop monitors, printers and mobile computers meet Energy Star requirements. With our energy-efficient products and practices government agencies can reduce energy consumption, power costs, and help the environment at the same time.

[Experience the Energy Star program >>](#)

Wireless Products and Accessibility

Samsung is dedicated to designing mobile devices to meet a variety of needs of persons with disabilities. Samsung has a number of phones that have been designed, tested and certified to potentially improve performance for users with hearing aids. Also, Samsung offers a number of mobile phones with voice recognition capabilities. Other accessibility features available in most Samsung mobile phones include, but are not limited to: Speakerphone, vibrating alert, tactile keys, nubs on or around the "5" key, soft keys and bright backlit display.
