

Contract Holder

# Alliant SB

Worldwide information technology solutions to federal agencies

## Introduction

- DasNet's award under GSA's new Alliant SB GWAC guarantees you will get the best value IT solution from an outstanding firm with a track record of excellence and expertise in supporting Government agencies. Alliant SB is in place to assist you in receiving the IT solutions and service continuity you need in a streamlined fashion with minimal fuss.
- Alliant SB, allows Government buyers to purchase \$65 billion in IT solutions over the next 10 years and minimize your risk along the way. Besides being conducive to interoperability and open source technologies, Alliant SB supports performance based contracting, revamping existing solutions, and the Federal Enterprise Architecture (FEA). These are essential elements DasNet is committed to integrating to assist the Government in accomplishing its short and long term goals of modernizing infrastructure and security/information assurance initiatives.

**"Engineering Beyond Imagination"**

## Alliant: Flexible & Secure

- Scope includes all components of an integrated IT solution
- There are no prescribed teaming arrangements
- Includes all current and any new technologies which may emerge during the life cycle of the contract for IT systems and services in support of National Security Systems
- GSA monitors performance, reviews SOWs and tracks what contractors are doing and how they are doing it to provide an additional level of oversight that is transparent to the customer without added costs
- Offers a full gamut of contract types: fixed price, cost reimbursement, labor hour, and time and material terms
- Enables federal clients to earn Small Business credit
- Low user fee (0.0075)
- Short procurement lead time

## DasNet Service Offerings

- **Infrastructure** - includes complete life cycle support for all hardware, software, and services represented above, including planning, analysis, research and development, design, development, integration and testing, implementation, operations and maintenance, information assurance, and final disposition of these components. The services also include administration and help desk functions necessary to support the IT infrastructure (e.g., desktop support, network administration).
- **Application Services** - includes complete life cycle support, including planning, analysis, research and development, design, development, integration and testing, implementation, operations and maintenance, information assurance, and final disposition.

- **IT Management Services** - enables the development and implementation of enhanced governance capabilities, to efficiently and effectively support Government agencies' mission requirements and service delivery operations. The services include support for Controls and Oversight, Risk Management and Mitigation, Regulatory Development, Planning and Resource Allocation, IT Security, System and Network Controls.
- **Ancillary Services** - may be included in an Order when they are integral to and necessary for the IT effort. Ancillary services include such tasks as; clerical support, data entry, training, subject matter expertise, and construction, alteration, and repair.
