

ITES-2S

Team DasNet and the Information Technology Enterprise Solutions - 2 Services Program

Introduction

- DasNet Corporation is teamed with Computer Sciences Corporation (CSC – Prime) to deliver results on the ITES-2S contract by blending our Army experience and presence with our mature information technology expertise. The ITES-2S contract is open to all Government Agencies and includes a full range of services and solutions for the Army, and you, to meet your expertise infrastructure and infostructure goals.
- Our Team has deservedly earned a reputation for innovation, quality and being responsive to our federal customers. We will provide services and solutions that efficiently, effectively and economically support your mission; our complete set of offerings will satisfy your needs for jobs large and small.
- ITES-2S is easy to use. The Army Computer Hardware, Enterprise Software and Solutions (CHESS) make sure of that!
- CHESS's acquisition innovation, combined with DasNet's IT innovation, effortlessly gives you the timely solutions you require.

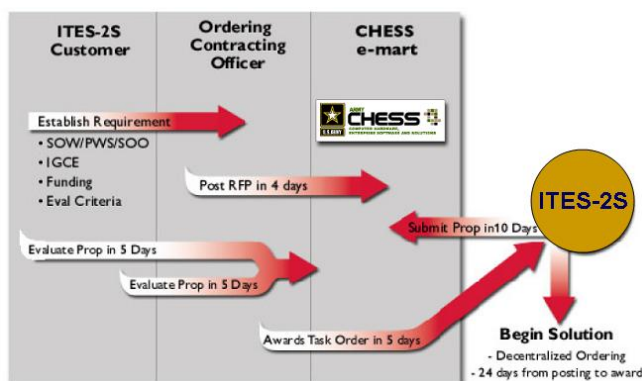

CSC, DasNet and CHESS: *Working together to exceed your expectations!*

“Engineering Beyond Imagination”

Getting Started

To begin the procurement under the ITES-2S contract, you should first visit the Computer Hardware, Enterprise Software and Solutions (CHES) web site at <https://chess.army.mil>. The web site has CHES's ITES-2S User Guide and other essential information and templates to assist you.

If you have any questions, CHES has experts in each of the area (e.g. SOW development, costing, etc.) and will work side-by-side with you to ensure your requirements are expeditiously met. The graphic below illustrates the simplified acquisition process under the ITES-2S contract.

Information Technology Enterprise

Broad Statement of Work providing the Federal Government the full range of services and solutions necessary for the Army to satisfy its support of the Army enterprise infrastructure and infrastructure goals worldwide.
