

# SATCOM-II

DasNet offers Government agencies a full range of satellite services

## Introduction

- DasNet Corporation is a prime contractor on the General Services Administration's SATCOM-II contract and an experienced satellite systems integrator. The SATCOM-II contract vehicle allows us to provide total satellite communications solutions to Government clients worldwide.
- Satellite solutions are provided in the following areas:
  - Mobile and fixed satellite transport services
  - Satellite applications services to include distance learning, telemedicine, and emergency response/continuity of operations planning (COOP)
  - Satellite system design, engineering, and maintenance services
  - Satellite professional services which include studies, planning, evaluations, trade-off analyses, regulatory compliance, and the very important field of information assurance.

**“Engineering Beyond Imagination”**

## Service Types

- **Type I Services -- Transport Services**  
All service providers offer Mobile Satellite Service, Fixed Satellite Service, or both.
- **Type II Services -- Applications Services**  
All service providers offer at least one Satellite Applications Service. These may be Distance Learning, Emergency Response/Continuity of Operations Planning, Telemedicine, Streaming Video, and Broadcast Satellite Service (BSS).
- **Type III Services -- Design, Engineering, and Maintenance Services**  
Design, Engineering, and Maintenance Services provide satellite system engineering design, configuration, installation, implementation, training, and ongoing maintenance and operational support for the services delivered under Service Types I and II.
- **Type IV Services -- Professional Support Services (Small Business only)**  
Professional Support Services include abstract or concept studies and analysis, strategic and preliminary planning, requirements definition and analysis, the evaluation of alternative technical approaches, modeling and simulation, enterprise architecture design, cost/cost-performance trade-off analysis, feasibility analysis, regulatory compliance support, system engineering, independent verification and validation, and Information Assurance certification and accreditation.

## Program Characteristics

- SATCOM-II offers a complete suite of commercial, Mobile, Fixed, and Broadcast services and equipment as well as end-to-end satellite-centric solutions such as Emergency Communications kits and Distance Learning networks.
- Satellite transport and the equipment necessary to use the service is covered under SATCOM-II. This includes any satellite modem, routers, or interfaces to connect the satellite delivered service to a customer's network.
- Any satellite service offered commercially is within scope and offered through SATCOM-II contractors.
- GSA's eBuy system has been expanded to include the SATCOM-II program.
- DasNet can custom-design your system and utilize SATCOM-II to place a contract.

## Contacts

### DasNet

Mr. Erv Robinson  
Director, Business Development  
333 Margie Drive  
Warner Robins, GA 31088  
Telephone: (631) 792-1755  
Mobile: (478) 397-6053  
erv.robinson@dasnetcorp.com

### GSA

Mr. James Russo  
Telecommunications Manager  
2E-27  
10304 Eaton Place  
Fairfax, VA 22030-0000  
Telephone: (703) 306-6631  
jim.russo@gsa.gov
