

The information below is provided by the companies to Hearing Loss Association of America®. HLAA has not vetted these companies. Inclusion is based on their assurances to us that they use the international induction loop standard (IEC-60118-4) for installation. This standard ensures strong, even coverage of the signal. We suggest you ask potential installers whether they offer engineering expertise to meet this standard and can verify that they have done so. This will prevent dissatisfaction with uneven, poor quality installations .

In some jurisdictions loop systems are required to be listed by Underwriters Laboratories Inc. (UL). UL is an independent product safety certification organization. Not all jurisdictions require UL listing. Ask the potential installers whether they can verify that they meet all applicable laws and regulations in your area.

## Hearing Loop Installers

### **Contacta, Inc.**

Vendor self-description: "Manufactures commercial and professional products for large venues and customer-facing applications." [www.contactainc.com](http://www.contactainc.com); [richard@contactainc.com](mailto:richard@contactainc.com); 616 392-3400

### **\* DasNet Corporation**

Based on LI, NY, this company is an international systems engineering firm that develops advanced communication solutions through research, analysis and engineering, and has installed induction loops in NYC's City Hall Council Chambers, among other venues, using ListenTech equipment. [www.dasnetcorp.com](http://www.dasnetcorp.com); [Dave.Salley@DasNetCorp.com](mailto:Dave.Salley@DasNetCorp.com) 631 348-3535

### **Hearing Loops Unlimited**

Vendor self-description: "Provides custom hearing loop designs and installations to meet specific facility or personal assistive listening needs. [Hearingloopsunlimited.us](http://Hearingloopsunlimited.us). [don@bataille.us](mailto:don@bataille.us); 585 727-0408

### **LoopAmerica**

Vendor self-description: "Online source for residential, commercial, and portable hearing loop systems." [www.LoopAmerica.com](http://www.LoopAmerica.com); [info@loopamerica.com](mailto:info@loopamerica.com); 248-783-1104

**\* Metro Sound Pros** Based in Washingtonville, NY, this company installs hearing loops as well as other audio, video, lighting and control system solutions. [www.metrosoundpros.com](http://www.metrosoundpros.com); [contactus@metrosoundpros.com](mailto:contactus@metrosoundpros.com); 845-429-7900

**\* North East Hearing PC** Configures loops and installs. Audiologist and technical team. They get their equipment from a Michigan distributor. [www.hearingloopnewyork.com](http://www.hearingloopnewyork.com); [Karen@hearingloopnewyork.com](mailto:Karen@hearingloopnewyork.com); 516 353-0066

### **Pure Direct Sound**

Vendor self-description: "Home loop kits, commercial loop amplifiers, plus other products to assist hearing." [www.puredirectsound.com](http://www.puredirectsound.com); [dick@puredirectsound.com](mailto:dick@puredirectsound.com); 425 898-7992

### **\* Sound Associates, Inc.**

"Sound Associates, Inc. is an established leader in the field of manufacture and installation of assisted listening products including: area looping systems, infrared listening systems and I-Caption, the personal captioning system." **Uses union installers.** [www.soundassociates.com](http://www.soundassociates.com); [newyork@soundassociates.com](mailto:newyork@soundassociates.com); 212-757-5679

Inclusion does not mean Hearing Loss Association of America has endorsed or vetted these installers, nor should exclusion suggest disapproval.

The companies listed above can direct you to recommended local installers of their products. In some cases, they will come to NYC and oversee the installation.

\* Note: DasNet Corporation, North East Hearing PC, Metro Sound Pros, and Sound Associates, Inc. serve the NYC metro area.
